Hi Prof. See and all,

We already received approval from RR-PCC system and it is now available for public viewing. We just got some minor correction for the dissertation. I will consult with Liu Yong to sort out this issue and including some comments from my side for improvement this dissertation. So, I don't think unsigned NDA is an issue now.

Best regards,

Dear all,

I hope all these matters can be resolved soon. We have to be fair with the PhD students, who have contributed to the Corp Lab but being penalised with all these red tape.

Subject: Meeting on Non-Disclosure Agreement for EEE PhD Postgraduates under Rolls-Royce

Dear Amit, Michael, Rejeki and Josep,

Seems to me that there is a difficulty to have a common slot for us to meet together. To expedite the examination of these students, I summarize on the table below the situation of the two students who have submitted their thesis more than 3 months ago. We wish to reach a common understanding to avoid further delay. Pls advise and/or confirm the decision or what needs to be done (highlighted in yellow below). Please kindly help to expedite the examination and avoid further delay. Thank you for your understanding.

Case 1

Student : Liu Yong (G1402567H)

DOA August 2014

Thesis Title : Compact Filter Design for High Power Density Converter

Supervisor : See Kye Yak

1) All Examiners signed NDA except:

- Internal Examiner who declined to sign NDA, AND email from Dr Abundo (Legal Office). The internal examiner view is that the student has already published several research papers, and he can present these published research works in his PhD oral defence.

- Chairman declined to sign NDA, BUT agreed on the email from Dr Abundo (Legal Office)

Status : - Email from Dr Abundo

<< Message: RE: Meeting : Non-Disclosure Agreement for EEE PhD Postgraduates under Rolls-Royce >>

2) Dr Amit mentioned in an email that the internal examiner need not sign NDA

3) Dr Rejeki Simanjorang indicated the need to get clearance from RR PCC systems in UK.

<< Message: RE: Meeting : Non-Disclosure Agreement for EEE PhD Postgraduates under Rolls-Royce >>

1) Based on the Rejeki email above we still need to get clearance from RR PCC.

Pls confirm.

Questions:

2) Based on Dr Amit's email, the internal examiner is not required to sign NDA nor to give email acknowledgement on the management of confidential information in the Letter of Appointment.

Pls kindly confirm. We need to avoid a situation whereby when we get approval from RR PCC we still have to change the examiner. If we need to change the examiner we do it now, but not easy.

Case 2

Student : Nguyen Viet Hung (G1300506K)

DOA August 2013

Thesis Title : Model-Based Diagnosis and Prognosis of Induction Machines under Stator Winding Inter-Turn Short Fault

Supervisor : Wang Dan Wei

Status : 1) All Examiners have signed NDA

Questions: Given that all examiners have signed NDA, the thesis is ready to be sent to the examiners. Based on the above case, is the clearance from RR PCC still required? If yes, it will cause further delay. Pls advise.

Subject: RE: Meeting : Non-Disclosure Agreement for EEE PhD Postgraduates under Rolls-Royce

Dear Harwati,

The Internal Examiners are strongly encouraged to sign the NDA. But if they refuse to do so, please abide by Mee Kim's guidance to inform the examiners (who are NTU faculty):

inform the individual examiners that all information disclosed during the qualifying examination are to be considered as Confidential Information and they are to comply with their terms of appointment with respect to the management of confidential information as extracted below (from the Letter of Appointment):

You shall not, at any time before or after the termination of your appointment, for whatever cause, use, reproduce, disclose, retain in your possession or control or communicate directly or indirectly to any person other than a person to whom you are authorised by the University to communicate and for a purpose authorised by the University, any document (in written or other form) or information in any form of a nature which is confidential, sensitive or proprietary to the University and its subsidiaries or information received from third parties by the University under obligations of confidentiality ("Confidential Information") and you shall indemnify and keep indemnified the University and its subsidiaries against all losses, costs and expenses arising therefrom.

Please send this to them and have them acknowledge via email that they have read and understood the terms of their Letter of Appointment😊 Do send me a copy of their acknowledgement once done (this will suffice in place of a signed NDA).

Thanks,

Mike

Subject: RE: Meeting : Non-Disclosure Agreement for EEE PhD Postgraduates under Rolls-Royce

Importance: High

Dear Prof Josep Pou and Dr Abundo

We seriously hope to resolve this issue of EEE staff need to sign NDA when examining thesis from RR@NTU Corp lab. The students' thesis has been pending on our side for quite a long time.

We seek your confirmation that as long as faculty staff are involved in the RR@NTU Corp lab, they are not required to sign NDA when they examine RR@NTU Corp Lab.

Also, from Wong Mee Kim's email attached, I extracted some points below on EEE examiners refusing to sign NDA:

We would recommend for the Undertaking to be put in place with the internal examiners so that we have signed acknowledgements that they understand their confidentiality obligations under the RRCorpLab RCA. However, if the EEE examiners still refuse to sign off on the Undertakings, RRCorpLab could instead inform the individual examiners that all information disclosed during the qualifying examination are to be considered as Confidential Information and they are to comply with their terms of appointment with respect to the management of confidential information as extracted below (from the Letter of Appointment):

You shall not, at any time before or after the termination of your appointment, for whatever cause, use, reproduce, disclose, retain in your possession or control or communicate directly or indirectly to any person other than a person to whom you are authorised by the University to communicate and for a purpose authorised by the University, any document (in written or other form) or information in any form of a nature which is confidential, sensitive or proprietary to the University and its subsidiaries or information received from third parties by the University under obligations of confidentiality ("Confidential Information") and you shall indemnify and keep indemnified the University and its subsidiaries against all losses, costs and expenses arising therefrom.

To move on, we hope to have your confirmation reply the soonest.

Thank you and best regards
